PROFESSIONAL SUMMARY

Frontend Developer and final-year B.Sc. Computer Science student at Nandha Arts and Science College with hands-on experience building responsive and AI-powered web applications. Skilled in React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Firebase, Vite, and modern UI/UX development, with practical experience integrating APIs and deploying web applications. Built an AI-powered website intelligence platform and a digital voting platform used by approximately 280+ students.

TECHNICAL SKILLS

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite, Responsive Web Design

UI/UX: Framer Motion, Glassmorphism, Responsive Design, Accessibility (A11y)

Backend & Database — Basic/Working Knowledge: Firebase Authentication, Cloud Firestore, Node.js, MongoDB

AI & API Integration: OpenRouter API, Vision LLM Integration, REST APIs, AI-Assisted Development

React Development: React Router, React Context API, Component-Based Architecture, State Management

Deployment & Tools: Netlify, Vercel, Cloudinary, PWABuilder, VS Code, npm, GitHub

Programming: Python, Java (Basic), R Programming, C/C++

PROJECTS

batWEB — AI-Powered Website Intelligence Platform

Technologies: React.js, Vite, Tailwind CSS, Framer Motion, OpenRouter API

- Engineered an AI-powered platform that analyzes website interfaces and generates insights on usability, accessibility, performance, and frontend architecture.
- Integrated OpenRouter Vision LLM capabilities to analyze website screenshots and generate actionable AI-driven recommendations.
- Built an analytics dashboard with radar charts, performance metrics, and a custom BWscore for website quality evaluation.
- Generated recommendations covering Core Web Vitals, accessibility (A11y), semantic HTML, and frontend improvements.
- Implemented responsive UI with Tailwind CSS, Glassmorphism, Framer Motion animations, and technical PDF report export.
- Used AI-assisted development workflows to accelerate frontend implementation, UI/UX development, debugging, and feature development.

batHouse — Social Networking Platform

Technologies: React.js, Firebase, Cloudinary, React Router, React Context API, Netlify, PWABuilder

- Engineered a responsive one-to-one messaging platform with image and video sharing.
- Integrated Firebase Authentication and Cloud Firestore for authentication and application data management.
- Implemented React Router and Context API for navigation and state management; integrated Cloudinary for media handling.
- Deployed through Netlify and converted the Progressive Web App into an Android application using PWABuilder.

NASC Online Voting Website

Technologies: React.js, Tailwind CSS, Firebase, Netlify

- Engineered and deployed a digital voting platform for department-level college elections, enabling approximately 280+ students to cast votes online.
- Integrated Firebase Authentication and Cloud Firestore for user access and voting data management.
- Designed a responsive interface using React.js and Tailwind CSS with a modern component-based UI.

Batwave — Podcast Platform

Technologies: HTML5, CSS3, JavaScript, Firebase

- Developed a responsive podcast platform for user podcast submissions and sharing.
- Implemented an administrator approval workflow for reviewing and publishing podcast content.

EDUCATION

B.Sc. Computer Science — Nandha Arts and Science College | Final Year | Expected Graduation: 2027

Higher Secondary (12th) — Mahesh Karthik Matric Hr. Sec. School, Akkaraipatti, Palani | 500/600 (83.33%)

TRAINING

ERP Software Training — SMT CONSTRUCTIONS | 15-Day Training Program | 15 Dec 2025 – 2 Jan 2026

Practical exposure to ERP software programming and enterprise application workflows.

CERTIFICATIONS

- JavaScript (Intermediate) — HackerRank | 2026
- React (Basic) — HackerRank | 2026
- CSS (Basic) — HackerRank | 2026
- Frontend Developer (React) — HackerRank
- Python (Basic) — HackerRank
- Java (Basic) — HackerRank
- AI for Beginners — HP LIFE / HP Foundation | 2026
- Professional Networking for Career Growth — HP LIFE / HP Foundation | 2026
- C Programming 101 — Infosys Springboard
- Pointers in C Programming — Infosys Springboard
- IP Awareness / Training Program — NIPAM, Intellectual Property Office, India | 18 Jul 2026

RELEVANT ACHIEVEMENTS

- Developed and deployed the NASC Online Voting Website, enabling approximately 280+ students to participate in departmental elections digitally.
- Second Place — Short Film Competition, Talentia 2025, Nandha Arts and Science College.
- Built and deployed multiple frontend projects using React.js, Firebase, Tailwind CSS, Netlify, and modern responsive UI practices.

CORE STRENGTHS

Problem Solving | Quick Learner | Adaptability | Creativity | Teamwork | Communication | Willingness to Learn

LANGUAGES

Tamil (Native) | English (Working Proficiency)
